...specially selected for you

BUPA has taken the care to select and form agreements with a network of quality hospitals in the UK. As a BUPA member you can be assured that these BUPA participating hospitals are committed to BUPA's excellent standards.

To check whether your scheme covers you for treatment at BUPA participating hospitals please call your helpline or refer to your current membership pack.

Do you have a scale of cover?

BUPA participating hospitals have three categories of accommodation A, B and C, with A being the highest and C the lowest. These represent the level of hospital charges for accommodation only and in no way do they reflect the quality of your treatment or care.

If you are a member of a scheme that has scales of cover you will need to ensure that you receive treatment in a category of hospital accommodation that is within your scale of cover. For example if you have scale C cover you would not be covered in full for hospital charges in a category B room. If you are unsure about your scale of cover please call your helpline - you will find the number in your current membership pack.

The hospitals on this list and the categories of accommodation may change from time to time. You should always call your helpline before arranging any treatment to check that your chosen hospital is a participating hospital and the categories of room available at the hospital.

If you need to make a claim

It is essential that you call your helpline to let us know of any treatment or consultation that your GP recommends, and again if your consultant recommends treatment. We will be able to confirm your cover and the benefits available to you.

Psychiatric treatment:

Not all BUPA schemes provide cover for psychiatric treatment. If you are unsure whether you do have this cover please contact your helpline. For those members whose scheme does provide psychiatric cover, please phone your helpline for a list of BUPA psychiatric network hospitals. Please remember that your claim for day-case or in-patient psychiatric treatment will only be eligible if BUPA has agreed to the treatment in writing before it begins.
